

Jackie Ho short CV

Associate Professor Jackie Ho is a Consultant Vascular and Endovascular Surgeon with the Department of Cardiac, Thoracic & Vascular Surgery in National University Health System. She is also the Director Endovascular Therapy of Vascular Surgery Division.

She graduated from the University of Hong Kong in year 1995. Obtained her fellowship of College of Surgery in 2002. Jackie works extensively in hemodialysis access service and revascularization for critical limb ischemia and limb salvage. She and few collaborators published “Practical Guide to Surgical & Endovascular Hemodialysis Access Management. Case Based Illustration” in 2015. She is also a strong believer in multi-disciplinary approach to dialysis access care. Together with various specialists and nurses, she organized cross-discipline, cross-country meeting “Dialysis Access Synergy DASy” in 2017 and 2019. She is the founding President of the Society of Dialysis Access Specialists SoDAS. She runs peripheral vascular intervention workshop in PAD revascularization regularly both in Singapore as well as in Hong Kong jointly with the local organizers. She also involved deeply in diabetic foot ulcer management which is closely related to peripheral arterial disease.
