Contact No: 65-94887518

### **PROFILE SUMMARY:**

Lillian has 20 years of extensive experience in dialysis nursing, clinical training and management of dialysis centre. Her strong dialysis knowledge ranges from chronic outpatient dialysis, such as hemodialysis (HD) and peritoneal dialysis (PD), as well as acute dialysis (CRRT, MARS, TPE) and home dialysis. In addition to her ongoing work in the role of Mentor and Dialysis Centre Manager, she has been involved in outpatient new dialysis centers setup, hospital based joint venture projects and management-contract based project with Singapore dialysis institution. Lillian believes in developing clinical leadership to improve dialysis quality, outcomes and patient satisfaction. She had led clinical improvement projects to enhance clinical practices and processes. She advocates Person Center Care and Nurse-led dialysis centre will increase patient's skills and confidence in managing their health problems and Infection Control is an important key to making dialysis safer for patients.
