Profile

Dr Tan Yih Kai is a Consultant Vascular and Endovascular Surgeon. He was Director of Vascular Services at Changi General Hospital and had been instrumental in the set up and expansion of the various vascular and endovascular services. He also revamped the wound care service and introduced state of the art wound management techniques at Changi General Hospital.

Dr Tan is also active academically. He has given numerous talks and workshops to both public and fellow healthcare providers. He has published in many peer-reviewed journals, including book chapters. He engages in active research in the field of wound

healing, arterial and venous diseases. He has special clinical interest in venous diseases, diabetic limb salvage and advance wound therapy.

Dr Tan obtained his medical degree from the University of Queensland, Australia and subsequently pursued his specialist training in the United Kingdom. Completing higher surgical training programme in General Surgery with special interest in vascular surgery. Following this, he returned to Australia to further advance his skill in endovascular procedures at the Royal and Repatriation Hospitals in South Australia.
